

Bob Pinder [REDACTED] (h) 4 [REDACTED] 3 (c)

Ship: M. Emir Aksoy

I boarded inbound vessel near SF Pier 27 at 0715, relieved pilot G. Waugh.

Vessel was bound for Redwood City.

Ship's equipment was operating satisfactorily except that the AIS Pilot Plug did not show a heading line on my PDA.

Ship did not have ECDIS or electronic charting. I had a PDA with Maptech navigation software and Bluetooth Pilot Plug adapter.

I anchored in #9 from 0818 to 1004 due to fog at the berth.

Visibility was over a mile when we got under way from anchorage to Redwood City. It was also over a mile at the berth and that was the controlling criteria.
